DATA IDENTIFICATION CODES

INTRODUCTION

The data identification codes appearing in the next tables are WIPO Standards. The first three of these tables contain codes universally known as Internationally recognized Numbers for the Identification of Data (INID) codes.

These standards are namely, WIPO Standard ST. 60 (Recommendation concerning bibliographic data relating to marks), Standard ST. 9 (Recommendation concerning bibliographic data on and relating to Patents and supplementary protection certificates (SPCs)), Standard ST. 80 (Recommendation concerning bibliographic data relating to Industrial Designs) and Standard ST. 3 (Recommended standard on two-letter codes for the representation of states, other entities and intergovernmental organizations).

INID CODES FOR MARKS

Code Interpretation

- (111) Registration number
- (141) Date of termination of the registration of a mark
- (151) Date of registration
- (156) Date of the renewal
- (210) Application number
- (220) Filing date
- (310) Priority number
- (320) Priority date
- (330) Convention country
- (511) Nice class
- (526) Disclaimer
- (529) Use limitations
- (540) Reproduction of the mark
- (550) Series mark
- (511) Three-dimensional mark
- (561) Transliteration
- (566) Translation
- (571) Description of the mark
- (591) Colour limitation
- (600) Association
- (731) Applicant's name
- (740) Name and address of the representative

INID CODES FOR

PATENTS

Code Interpretation

- (11) Patent number
- (21) Application number
- (22) Filing date
- (24) Effective date of patent
- (31) Priority number
- (32) Priority date
- (33) Convention country /organization
- (45) Date of publication
- (51) Symbol of the International Patent Classification (IPC)
- (54) Title of the invention
- (56) Documents cited in the examination
- (57) Abstract
- (71) Applicant's name. If in announcements concerning assigned applications or patents, this code represents the name of the assignee.
- (72) Name(s) of inventor(s)
- (73) Name(s) of holder(s) of patent. If in announcements concerning assigned applications or patents, this code represents the name of the assignor.
- (74) Attorney's name
- (75) Name(s) of inventor(s) who is/are also applicant(s)
- (84) States designated under the Harare Protocol
- (86) PCT international filing date and number
- (96) Harare Protocol filing date and number

READERS' NOTICES

ADVERTISEMENT PROCEDURES AND RATES

Publication of the journal as to statutory requirements

THE ZANZIBAR INDUSTRIAL PROPERTY JOURNAL is the official journal of industrial property for the Zanzibar Industrial Property Office. It incorporates the Patent, Marks, Utility models, Design, and Geographical Indications Journal required by the provisions of the Zanzibar Industrial Property Act, No. 4 of 2008 and Regulation 103 to be published.

Frequency of the Journal

The Industrial Property Journal: the Official Journal of Patent, Trade Marks for Zanzibar is published, only in English, on the 1st of every month.

CONDITIONS FOR ADVERTISING

Authorisation for Advertisement

No advertisement will be accepted for publication in the Journal unless it has been approved, and it actually carries proof of such authorisation, by the Registrar of Industrial Property, as the case may be, for publication.

Responsibility for consequence of Advertisement

Neither the Revolutionary Government of Zanzibar nor the Executive Director (The Registrar), accepts any responsibility for cases arising from errors or omissions in any advertisement and neither does the Government nor the Registrar, guarantee the accuracy of any particular publication in the journal.

Paying for Subscription Advertisement

All advertising charges therefor are payable direct to the Zanzibar Business and Property Registration Agency (BPRA) account prior to his issuing the proof of advertisement notice to the advertiser.

MISCELLANY

Address of Enquiry or of Correspondence

All-enquiry or correspondence concerning all matters about the Journal or about anything published or intended to be published in the Journal should be presented either in person, to BPRA 2nd Floor, Sheria House, Mazizini or by post to the Registrar of Industrial Property, BPRA, P.O. Box 260, Mazizini, Zanzibar

- (511) Int. Class 09: Software; Mobile application software; Computer hardware; Software for social networking and creating and interacting with online communities; Software for creating, managing and accessing groups within virtual communities; Software development tools; Software to enable development, assessment, testing, and maintenance of mobile software applications for portable electronic communication devices, namely, mobile phones,

software for online charitable fundraising services and donation services; Scientific and technological services and research and design relating thereto; Industrial analysis and research services; Computer hardware and software design, development, installation and maintenance; Research services and consulting in the field of information and telecommunications technology; Design of telecommunications apparatus and equipment; Consulting services in the field of design, selection, implementation and use of computer hardware and software systems for others; Providing online software platform featuring technology that enables online users to make payments and transfer funds; Providing online software platform featuring technology that enables online users to make payments and funds transfers across multiple websites and mobile applications; Computer services, namely, application services provider featuring application programming interface (API) software to allow users to perform e-commerce transactions via the internet and communications networks; Software as a services (SAAS) services featuring software for facilitating e-commerce transactions via the internet and communications networks; Application service provider featuring an application programming interface (API) software to allow users to perform e-commerce transactions via the internet and communications networks; Non-downloadable software for converting natural language into machine-executable commands; Analyzing and evaluating social media content; Developing standards for third-party social media content; Conducting proceedings relating to standards concerning third-party social media content; Content moderation and supervision; Web publishing, namely, publishing of decisions concerning third-party social media content; Non-downloadable computer software in the nature of a query engine; Non-downloadable computer software for use in performing queries on large amounts of data; Non-downloadable computer software in the nature of a query engine functioning across business intelligence (BI) tools; Non-downloadable artificial intelligence software for facilitating machine learning software; Application service provider (ASP) featuring software to enable or facilitate machine learning

smartphones, handheld computers and computer tablets; Software for use as an application programming interface (API); Software for organizing events, searching for events, calendaring and managing events; Software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, interacting with, embedding, and sharing or otherwise providing electronic media, images, video, audio, audio-visual content, data, and information via the internet and communication networks; Software for finding content and content publishers, and for subscribing to content; Software for creating and managing social media profiles and user accounts; Interactive photo and video equipment, namely, kiosks for capturing, uploading, editing, printing and sharing digital images and video; Software for streaming multimedia entertainment content, audio-visual content, video content, and associated text and data; Software for enabling transmission of images, audio, audio visual and video content and data; Software for modifying photographs, images and audio, video, and audio-visual content; Software for use in taking and editing photographs and recording and editing videos; Software for processing images, graphics, audio, video, and text; Software for collecting, managing, organizing, modifying, transmitting, synchronizing, and storing data and information; E-commerce software; E-commerce software to allow users to perform electronic business transactions via a global computer and communication networks; Software and mobile application software providing a virtual marketplace; Software for sending and receiving electronic messages, alerts, notifications and reminders; File sharing software; Messaging software; Search engine software; Software for use in creating, managing, measuring, and disseminating advertising of others; Advertisement server, namely, a computer server for storing advertisements and delivering advertisements to websites;

software; Non-downloadable software for machine learning; Non-downloadable software tools for software development; Non-downloadable software for building user interfaces; Application service provider (ASP) featuring software to enable or facilitate user interface building software; Electronic data storage; Electronic storage of photographs; Interactive hosting services which allow the users to publish and share their own content and images online; Non-downloadable software for database management; Computer network services; Non-downloadable software for opinion polling; Non-downloadable software allowing users to post questions with answer options; Platform as a service (PAAS) services featuring technology that allows businesses, organizations and individuals to create and manage their online presences and to communicate with online users information and messages regarding their activities, products and services and to engage in business and social networking; Non-downloadable software featuring technology that allows users to manage their business networking accounts; Non-downloadable software for voice command and recognition software, speech to text conversion software, voice-enabled software applications for personal information management; Platform as a service (PAAS) featuring computer software platforms for personal assistant software; Platform as a service (PAAS) featuring computer software platforms for home automation and home device integration software; Platform as a service (PAAS) featuring computer software platforms for wireless communication software for voice, audio, video, and data transmission; Software as a service (SAAS) featuring computer software for personal information management; Non-downloadable software for accessing, monitoring, tracking, searching, saving, and sharing information on topics of general interest; Software as a service (SAAS) featuring computer software for use to connect and control internet of things (iot) electronic devices; Software as a service (SAAS) featuring computer software for others to use for the development of software to manage, connect, and operate internet of things (iot) electronic devices; Software as a service (SAAS) featuring computer software for use as an application programming interface (API); Design,

Software for creating, sharing, disseminating and posting advertising; Software for geo-location based advertising and product and service promotion; Software that enables individuals, groups, companies, and brands to create and maintain an online presence and interact with online communities for marketing purposes; Downloadable virtual reality software; Downloadable augmented reality software; Downloadable mixed reality software; Virtual reality software for interactive entertainment and virtual reality gaming; Augmented reality software for interactive entertainment and augmented reality gaming; Software for integrating electronic data with real world environments for the purposes of entertainment, education, gaming, communicating, and social networking; Software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual reality and augmented reality experiences; Software for operating, configuring, and managing virtual reality headsets and controllers; Software for gesture recognition, object tracking, motion control, and content visualization; Software, firmware and hardware for use in visual, voice, audio, motion, eye and gesture tracking and recognition; Software for navigating a virtual reality and augmented reality environments; Software for enabling users to experience virtual reality and augmented reality visualization, manipulation, and immersion; Software for recording, storing, transmitting, receiving, displaying and analyzing data from wearable computer hardware; Software for use in creating and designing virtual reality and augmented reality software; Application programming interface (API) for computer software for developing virtual reality and augmented reality experiences; Virtual reality game computer hardware; Augmented reality game computer hardware; Mixed reality game computer hardware; Virtual reality computer hardware; Augmented reality computer hardware; Mixed reality computer hardware; Motion tracking sensors

development and maintenance of proprietary computer software for others in the field of natural language, speech, language, and voice recognition excluding post-production of picture and sound recordings; Technical support and consultation services for developing applications; Information, advisory and consultancy services relating to voice command and recognition software, speech to text conversion software, and voice-enabled software applications, home automation, and internet-of-things software; Providing information, news, and commentary in the field of science and technology, home decorating, weather, and graphic, interior, product, and fashion design; Technological services, namely, data warehousing services; Application service provider (asp), namely, hosting computer software applications through the internet of others; Consultation services relating to programming of multimedia application management, computer programming, hardware, software, and computer system design and specification; Software as a service (SAAS) services, namely, hosting software for use by others for use in providing an online database featuring a wide range of general interest information via the internet; Non-downloadable mobile communications device software for enhancing mobile access to the internet via computers, mobile computers, and mobile communications devices; Technical support, namely, troubleshooting of computer hardware and software problems and mobile computer and mobile communications device hardware and software problems; Computer, mobile computer, and mobile communication device hardware and software consultation and design; Non-downloadable computer software that enables users to access and download computer software; Non-downloadable software and applications for accessing streaming audio and video files, games, social networks, text files, and multimedia files; Application service provider (ASP) featuring application programming interface (API) software for the streaming, storage, and sharing of video games, content, data and information; Computer software development in the field of mobile applications; Providing technical support services, namely, troubleshooting of computer software problems regarding the usage of

for virtual reality, augmented reality and mixed reality technology; Virtual reality hardware, namely, headsets, glasses, and controllers for engaging in virtual reality experiences and playing virtual reality games; Augmented reality hardware, namely, headsets, glasses, and controllers for engaging in augmented reality experiences and playing augmented reality games; Wearable computing devices comprised primarily of software and display screens for connection to computers, tablet computers, mobile devices, and mobile phones in order to enable virtual reality and augmented reality world experiences; Hardware and software for operating sensor devices; Electronic sensor devices, cameras, projectors, and microphones for gesture, facial, and voice detection, capture and recognition; Hardware and software for detecting objects, user gestures and commands; Game software; Software for game development; Gaming software development tools; Blockchain gaming software; Downloadable electronic game software in the nature of video games, computer games, interactive multimedia games, and virtual, augmented, and mixed reality games; Computer software for controlling the operation of audio and video devices; Video display software; Software for accessing and viewing text, images and electronic data relating to conferences in the field of software development; Software for converting natural language into machine-executable commands; Software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms; Application programming interface (API) for use in developing AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; Software, namely, an interpretive interface for facilitating interaction between humans and machines; Artificial intelligence software, namely, machine learning software, visual perception software, speech or language recognition software, decision-making software, translation software, touch recognition

communications equipment; Computer services; Information technology (IT) services; Application service provider (ASP) services, namely, hosting computer software applications of others; Application service provider (ASP) services, featuring e-commerce software for use as a payment gateway that authorizes processing of credit cards or direct payments for merchants; Application service provider (ASP) services, namely, providing, hosting, managing, developing, and maintaining applications, software, websites and databases in the fields of information technology, blockchain, virtual currency, digital currency, cryptocurrency, and digital assets; Application service provider (ASP) services featuring software for use in virtual currency, digital currency, cryptocurrency, and digital asset exchange and transactions; Application service provider (ASP) featuring software to enable or facilitate the creating, editing, uploading, downloading, accessing, viewing, posting, displaying, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via the internet and communications networks; Application service provider services featuring application programming interface (API) software to allow users to perform electronic business transactions via a global computer network; Application service provider (ASP) featuring software to enable or facilitate purchasing goods and services; Software as a service (SAAS) services; Platform as a service (PAAS) services; Non-downloadable cloud computing software; Providing distributed ledger technology; Non-downloadable distributed ledger software ;Non-downloadable cryptography software; Non-downloadable software for use with cryptocurrency; Non-downloadable software for use with digital currency; Non-downloadable software for use with virtual currency; Non-downloadable software for cryptocurrency mining; Non-downloadable software for cryptocurrency farming; Non-downloadable software that facilitates the ability of users to view, analyze, record, store, monitor, manage, trade and exchange digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Non-downloadable

software, conversational query software, software for converting natural language into machine-executable commands, and digital assistant software; Virtual assistant software that can perform tasks or services on behalf of a user that is activated by user input, location awareness, and online information; Software for providing consumer information; Software for providing electronic maps; Location-aware software for searching, determining, and sharing locations; Software for searching and identifying employment opportunities; Software for identifying and allowing users to contact government representatives; Software providing location-based weather information; Software providing, linking to, or streaming news or current events information; Parental control software; Computer software; Computer operating systems; Software for enabling electronic devices to share data and communicate with each other; Computer peripheral devices; Wearable peripherals for computers, tablet computers, mobile devices and mobile telephones; Digital media streaming devices; Headsets; headphones; Gaming headsets; Computer gaming peripherals; Video display hardware, namely, video drivers for video eyewear; Cameras; Batteries; Battery cases; Battery packs; Rechargeable electric battery devices, namely, rechargeable batteries and portable power supplies; Battery chargers; Rechargeable external battery packs for use with mobile electronic devices; Power charging and power management devices for mobile electronic devices; Charging stands for mobile electronic devices; External chargers for use with computers, tablet computers, mobile devices and mobile telephones; Wireless charging cases for use with computers, tablet computers, mobile devices and mobile telephones; Power adapters; Electrical adapters, cable, and connectors; Bags and cases specially adapted for mobile electronic devices; Protective covers and cases for mobile electronic devices; Cases for computers, smartphones, headphones, headsets and gaming devices; Holders, armbands, clips and carrying cases

software for sending, receiving, accepting, buying, selling, storing, transmitting, trading and exchanging digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Non-downloadable software for implementing, executing, and recording financial transactions, Non-downloadable software for creating accounts and maintaining and managing information about financial transactions on distributed public ledgers and peer to peer payment networks; Non-downloadable software for managing and verifying transactions on a blockchain; Non-downloadable software for processing electronic payments and for transferring funds to and from others; Providing electronic financial platform software; Providing software for use as an application programming interface (API) for the development, testing, and integration of blockchain software applications; Non-downloadable software for transfers of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens between parties; Non-downloadable software for use in financial trading; Non-downloadable software for use in financial exchange; Non-downloadable software for use in accessing financial information and market data and trends; Non-downloadable software for the management of cryptographic security of electronic transmissions across computer networks; Non-downloadable software for use with virtual currency; Providing software for use with digital currency; Providing software for use with cryptocurrency; Non-downloadable software for use with digital currency wallet and storage services; Providing non-downloadable software for use as a cryptocurrency wallet; Providing non-downloadable software for use as an electronic wallet; Providing non-downloadable software for use as a digital wallet; Non-downloadable software for creating and managing electronic wallets; Electronic data storage services; Non-downloadable software for electronic funds transfer; Non-downloadable software for currency conversion; Non-downloadable software for the collection and distribution of data; Non-downloadable software for payment and exchange transactions; Non-downloadable

specially adapted for mobile electronic devices; Wall mounts for mounting mobile electronic devices; Stands for mobile electronic devices; Holders for mobile electronic devices; Remote controls for mobile electronic devices; Audio speakers; Electrical audio and speaker cables and connectors; Electronic cables parts and fittings; Electronic cables; Cables for optical signal transmission; Power cables and cable connectors; Microphones; Audio receivers; Audio transmitters; Head-mounted video display; Receivers of electronic signals; Video receivers; Wireless transmitters and receivers for reproduction of sound and signals; Electric sensors; Sensors for monitoring physical movements; SIM cards; Software for use in customer relationship management (CRM); Software for facilitating and arranging for the financing and distribution of fundraising and donations; Software for online charitable fundraising services and financial donation services; Software for use in facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, instant message and online social networking services; Telecommunications equipment for providing third party access to, and enabling the transmission of video, data and voice over, global communications networks, namely, mobile and access computer and mobile telephone terminals, base transceiver stations and wireless radio parts thereof, data transceivers, data repeaters, routers and switches, transmission circuits, integrated circuits, computer hardware, mobile cloud clients and servers, multiplexers, digital signal processors, radio frequency signal processors, mobile switching circuits, air traffic electrical controllers, mobility electrical controllers, access electrical controllers, remote port electrical controllers, radio ports, antennas, electronic radio components, software for telecommunications applications, and mobile core networks comprising data transceivers, wireless networks and gateways for collection, transmission and management of data, voice and video; Communication

software for connecting computers to local databases and global computer networks; Non-downloadable software for creating searchable databases of information and data; Non-downloadable software for managing and validating digital currency, virtual currency, cryptocurrency, digital asset, blockchain asset, digitized asset, digital token, crypto token and utility token transactions; Non-downloadable software for creating, executing, and managing smart contracts; Development and implementation of smart contracts; Non-downloadable software for managing payment and exchange transactions; Non-downloadable software for electronically exchanging currency for digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Non-downloadable software for use in enabling the electronic transfer of funds to and from others; Non-downloadable software for decentralized finance; Non-downloadable software for creating a decentralized and open source digital currency for use in blockchain-based transactions; Non-downloadable software for creating a decentralized and open source virtual currency for use in blockchain-based transactions; Non-downloadable software for creating a decentralized and open source cryptocurrency for use in blockchain-based transactions; Non-downloadable software for encrypting and enabling secure transmission of digital information over the Internet, as well as over other modes of communication between computing devices; Distributed ledger platform software for use in processing financial transactions; Non-downloadable software for maintaining ledgers for financial transactions; Non-downloadable software for electronic funds transfer and currency conversion; Providing a web portal featuring blogs and non-downloadable publications in the nature of articles, columns, and informational guides in the fields of virtual currencies, digital and blockchain assets and market and trading trends; Non-downloadable electronic publications; Non-downloadable digital images, audio, video and multimedia files; Non-downloadable computer graphics; Platform as a service (PAAS) featuring computer software platforms for the selling and purchasing digital

software and communication computer hardware for providing access to the Internet; Telecommunications equipment; Radio receivers and transmitters; GPS receivers; Software to allow users to perform e-commerce transactions via the internet and communications networks; Communications software; Software that allows users to make payments and transfer funds; Software that enables online users to make payments and transfer funds across multiple websites and mobile applications; Electronic payment processing software; Software for processing electronic transactions; Computer software in the nature of a query engine; Software for facilitating machine learning; Software for building user interfaces; Downloadable electronic publications; Software for opinion polling; Software allowing users to post questions with answer options; Interactive photo and video equipment, namely, kiosks computer hardware for capturing, uploading, editing, printing and sharing digital images and video; Software for the synchronization of data between a remote station or device and a fixed or remote station or device; Voice command and recognition software, speech to text conversion software; Voice-enabled software applications for personal information management; Home automation and home device integration software; Wireless communication software for voice, audio, video, and data transmission; Software used for controlling stand-alone voice controlled information and personal assistant devices; Software for voice recognition for use in connection with the transmission of voice and data; Software for accessing, browsing, and searching online databases, audio, video, and multimedia content, games, and software applications, and software application marketplaces; Software for use to connect and control internet of things (iot) electronic devices; Computer application software for handheld wireless devices, namely, software for controlling, integrating, operating, connecting, and managing voice controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices and electronic

currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Software as a service (SAAS) featuring computer software platforms for the selling and purchasing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Computer services, namely, creating an on-line virtual environment for the selling and purchasing of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Platform as a service (PAAS) featuring computer software platforms for managing blockchain and token driven, distributed storage computer systems; Software as a service (SAAS) featuring computer software platforms for managing blockchain and token driven, distributed storage computer systems; Computer services, namely, providing secure, private encrypted cloud storage services; Computer services, namely, providing open source decentralized cloud storage platform; Data encryption services featuring blockchain software technology and peer-to-peer protocols to provide secure, private, and encrypted cloud storage; Data mining; Non-downloadable software for use with blockchain technology; Software as a service (SAAS) services featuring software for clearing, allocation, compliance, recordation and settlement of trading related to digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Platform as a service (PAAS) services featuring software for clearing, allocation, compliance, recordation and settlement of trading related to digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Platform as a service (PAAS) featuring software platforms for facilitating transactions and payments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens that allow users to buy from, and sell products and services to others; Software as a service (SAAS) featuring software platforms for facilitating transactions and payments using digital currency,

personal assistant devices; Software for processing, reproducing, synchronizing, recording, organizing, downloading, uploading, transmitting, streaming, receiving, playing and viewing text, multimedia and data files; Software, for personalized, interactive television (TV) programming and for use in displaying and manipulating visual media, graphic images, text, photographs, illustrations, digital animation, video clips, film footage and audio data; Software in the nature of a mobile application for telecommunication services for providing transmission of voice, data, video, and media content via the internet and the worldwide web for computers or other portable consumer electronic devices; Software for searching television entertainment exploration guides; Software for searching, locating, compiling, indexing, correlating, navigating, obtaining, downloading, receiving, encoding, decoding, playing, storing and organizing text, data, images, graphics, audio and video on a global computer network; Software to enhance mobile access to the internet via computers, mobile computers, and mobile communications devices; Software for formatting and converting content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works into a format compatible with portable electronic devices and computers; Software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; Electronic communication equipment and instruments, namely, mobile and wearable digital electronic devices for sending and receiving of text, data, audio, image, and video files; Telecommunications apparatus and instruments, namely, speakers and microphones sold as component features of computers, mobile and wearable digital electronic devices for the sending and receiving of telephone calls, text messages, electronic mail, and other digital data, and for

virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens that allow users to buy from, and sell products and services to others; Blockchain-based software platforms and distributed computing software platforms for auditing and verifying digital information and codes; Non-downloadable blockchain software; Design, development and implementation of audit and security software for blockchain-based platforms; Non-downloadable software for use in facilitating secure transactions; Non-downloadable software for auditing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Design, development, and implementation of software for distributed computing platforms; Design, development, and implementation of software for blockchain; Design, development, and implementation of software for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token wallets; Design, development, and implementation of software for third-party verification services for digital currency transactions, including but not limited to transactions involving bitcoin currency; Non-downloadable software for users to buy and sell products by using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Non-downloadable software for use in accessing, reading, tracking, and using blockchain technology; Technical consultancy services related to digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token transactions; Platform as a service (PAAS) featuring computer software platforms for computer system and application development, deployment, and management; Software as a service (SAAS) featuring computer software platforms for computer system and application development, deployment, and management; Non-downloadable software enabling users to develop, build and run distributed applications through an open-source peer-to-peer smart-contract and payment network platform; Providing temporary

use in providing access to the internet; Electronic notepads; Electronic personal organizers; Electronic voice recording and voice recognition apparatus; Portable digital electronic devices for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, and digital files; Wearable computer hardware; Wearable digital electronic devices comprised primarily of software for alerts, messages, emails, and reminders, and for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, audio, image and digital files and display screens; Software for accessing, browsing and searching online databases; Software for accessing, monitoring, searching, displaying, reading, recommending, sharing, organizing, and annotating news, sports, weather, commentary, and other information, content from periodicals, blogs, and websites, and other text, data, graphics, images, audio, video, and multimedia content; Software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, data, graphics, images, audio, video, and multimedia content, electronic publications, and electronic games; Apparatus for recording, transmission or reproduction of sound or images; Apparatus for transmission of communication; Apparatus for data storage, namely, mobile and wearable digital electronic devices for the storage of text, data, audio, image, and video files; Blockchain; Blockchain software; Cryptocurrency; Cryptography software; Software for cryptocurrency mining; Software for cryptocurrency farming; Software in the field of blockchain; Software for use with cryptocurrency; Software for use with digital currency; Software for use with virtual currency; Digital currency wallet and storage services software; Software for use as a cryptocurrency wallet; Cryptocurrency hardware wallet; Downloadable computer software for use as a digital wallet; Downloadable computer software for use as an electronic wallet; Computer programs and

use of non-downloadable authentication software for controlling access to and communications with computers and computer networks; Non-downloadable communications software; Non-downloadable software for use in the exchange of virtual items; Providing a digital exchange; Non-downloadable software for use in issuing digital currency, virtual currency, cryptocurrency, digital and blockchain assets; Application service provider (ASP); Application service provider (ASP) featuring application programming interface (API) software which facilitates online services for social networking, developing software applications; Application service provider (ASP) featuring location-aware software for searching, determining and sharing the location of goods, services and events of interest; Application service provider (ASP) featuring software for mapping services; Application service provider (ASP) featuring software for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Application service provider (ASP) featuring software for use in buying, selling, designing, managing, tracking, valuing, optimizing, targeting, analyzing, delivery, and reporting of online advertising and marketing; Application service provider (ASP) featuring software to enable or facilitate the sharing and displaying a user's location, planning activities with other users and making recommendations; Application service provider (ASP) featuring software to enable or facilitate social and destination mapping; Application service provider (ASP) featuring software to enable or facilitate interaction and communication between humans and AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; Application service provider (ASP) services; Application service provider (ASP) services featuring software for controlling, integrating, operating, connecting, and managing voice -controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices and electronic personal assistant devices; Application service provider (ASP), namely,

computer application software for electronic storage of data; Software for providing a digital wallet; Software for digital currency payment and exchange transactions; Software for use in managing portfolios of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Software for use as an electronic wallet; Software for creating and managing electronic wallets Software for electronic wallet services; Downloadable e-wallets; Distributed ledger software; Distributed ledger platform software; Software for use with distributed ledger technology; Software that facilitates the ability of users to view, analyze, record, store, monitor, manage, trade and exchange digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Software for sending, receiving, accepting, buying, selling, storing, transmitting, trading and exchanging digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Software for executing and recording financial transactions; Distributed ledger software for use in processing financial transactions; Software for creating accounts and maintaining and managing information about financial transactions on distributed ledgers and peer to peer payment networks; Software for use in financial trading; Software for use in financial exchange; Software for accessing financial information and market data and trends; Software for providing authentication of parties to a financial transaction; Software for maintaining ledgers for financial transactions; Software for the management of cryptographic security of electronic transmissions across computer networks; Software for encrypting and enabling secure transmission of digital information over the Internet; Software for allowing users to calculate parameters related to financial transactions; Software for electronic funds

hosting, managing, developing and maintaining applications, software, and web sites, in the fields of personal productivity, wireless communication, and mobile applications; Application service provider (ASP), namely, providing, hosting, managing, developing, and maintaining applications, software, websites, and databases in the fields of calculation of website ranking based on user traffic; Application service provider (ASP), namely, remote hosting of computer applications of others; Application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, web sites, and databases in the fields of wireless communication, mobile information access, and remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; Application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, websites, and databases in the fields of calculation of website ranking based on user traffic; Computer consulting; Computer programming; Computer hardware and software consultation and design; Computer hardware, software, application, and network consulting services; Computer online services, namely, providing information, online links and electronic resources related to sports, health, and fitness; Computer services in the nature of providing customized online pages featuring user-defined or specified information, personal profiles, virtual reality, mixed reality, and augmented reality content and data; Computer services, namely, creating virtual communities for registered users to organize groups and events, participate in discussions, get feedback from their peers, and engage in social, business and community networking; Computer services, namely, curating online user-defined content and advertisements and creating social media feeds; Computer services, namely, hosting online web facilities for others for organizing and conducting meetings, events and interactive discussions via the internet and communication networks; Computer services, namely, providing information in the fields of technology and software development via the internet; Computer software development; Creating, maintaining and hosting of a website and other computer and electronic

transfer; Software for currency conversion; Software for the collection and distribution of data; Software for payment transactions; Software for connecting computers to local databases and global computer networks; Software for creating searchable databases of information and data; Software for managing and validating transactions involving digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; Software for creating, executing, and managing smart contracts; Software for managing payment and exchange transactions; Software and hardware for use as a digital currency wallet, virtual currency wallet, digital asset wallet, crypto token wallet, and utility wallet; Software for creating a decentralized and open source digital currency, virtual currency, cryptocurrency, digitized assets, digital token for use in blockchain-based transactions; Software for decentralized finance; Software for developing decentralized applications; Software for recording, managing, tracking, and transferring ownership interests in decentralized autonomous organizations; Software for management and governance of decentralized autonomous organizations; Software for participating and voting in decentralized autonomous organizations; Software for arranging and conducting auctions; Software for voting; Computer application software for blockchain-based platforms, namely, software for digital exchanges for virtual items; Software for creating, selling and managing blockchain-based tokens or appcoins; Software for use in an electronic financial platform; Software for processing electronic payments and for transferring funds to and from others; Blockchain platform software; Software for managing and verifying transactions on a blockchain; Software for use in the management and implementation of digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token

communication networks featuring information, online links, and electronic resources in the field of sports and fitness; Creating, maintaining and hosting of an interactive web site and other computer and electronic communication networks that enables users to enter, access, track progress, monitor and generate health, fitness, personal exercise, sports, and athletic activity information and achievements; Creating, maintaining and hosting of an interactive web site and other computer and electronic communication networks that enables users to compete and compare athletic information and achievements with other users; Design and development of augmented reality hardware and software; Design and development of computer hardware and computer software; Design and development of interactive multimedia software; Design and development of augmented reality hardware and software; Design and development of mixed reality hardware and software; Design and development of virtual reality hardware and software; File sharing services, namely, providing online facilities for others featuring technology enabling users to upload and download electronic files; Hosting of digital content on the internet; Mapping services; Mobile computer and mobile communications device hardware and software consultation and design; Mobile computer and mobile communications device software design for others; Non-downloadable computer software for displaying, aggregating, analyzing and organizing data and information in the fields of health, wellness, fitness, physical activity, weight management, sleep, and nutrition; Non-downloadable computer software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; Non-downloadable computer software for sharing and displaying a user's location, planning activities with other users and making recommendations; Non-downloadable computer software for social and destination mapping; Non-downloadable computer software for tracking fitness, health and wellness goals and statistics; Non-downloadable software for creating personalized fitness training programs; Non-downloadable software for creating, managing and accessing user-created and administered private groups within virtual

transactions; Software for creating and managing a blockchain platform for use in managing digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token accounts; Software for managing crypto currency and digital currency accounts; Software for use in payments, purchases, and investments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Software for use in managing the conversion of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens into hard currency; Software for developing, deploying, and managing software applications, and integrating software applications for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token accounts; Software and hardware for use in electronically exchanging currency for digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Software for use as an application programming interface (API) for the development, testing, and integration of blockchain software applications; Computer hardware for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, and digitized asset mining; Security token hardware; Electronic currency converters; Software, namely, electronic financial platform that accommodates multiple types of payment and transactions in an integrated mobile phone, personal digital assistant (PDA), and web-based environment; Software for creating tokens to be used to pay for products and services, and that may be traded or exchanged for cash value; Software for managing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized asset, digital token, crypto token and utility token payments, money transfers, and commodity

communities; Non-downloadable software for ordering and/or purchasing goods and services; Non-downloadable software for processing electronic transactions; Non-downloadable software for providing a virtual marketplace; Non-downloadable software for providing personal training services, workouts and fitness assessments; Non-downloadable software for social networking, creating a virtual community, and transmission of audio, video, images, text and data; Non-downloadable software for streaming multimedia entertainment content; Non-downloadable software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; Non-downloadable software for processing images, graphics, audio, video, and text; Non-downloadable software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; Online ad-buying platform provider, namely, providing non-downloadable software programs for allowing buyers and sellers of online advertising to purchase and sell advertising inventory; Non-downloadable cloud computing software for use in electronic storage of data; Non-downloadable cloud computing software for virtual reality, mixed reality and augmented reality applications and environments; Non-downloadable computer software for use in providing retail and ordering services for a wide variety of consumer goods; Platform as a service (PAAS) featuring computer software platforms for use in purchasing and disseminating advertising; Platform as a service (PAAS) featuring computer software platforms for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Platform as a service (PAAS) featuring computer software platforms for voice command and recognition software, speech to text conversion software, voice-enabled software applications for personal information management; Platform as a service (PAAS) featuring software platforms for social

transfers; Software for use as an application program interface (API) software for use in computer hardware device identification; Software for use in authenticating user access to computers and computer networks; Software for use in facilitating secure transactions; Software for use in accessing, reading, tracking, and using blockchain technology; Software and hardware for managing identity information, access rights to information resources and applications and authentication functionality; Software for network identification verification, authentication and management services for security purposes; Downloadable authentication software for controlling access to and communications with computers and computer networks; Magnetically encoded credit cards and payment cards; Encryption devices; Security tokens; Software for use as a security token; Software used in issuing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Crypto tokens and utility tokens; Software used in auditing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Ad server, namely, a computer server for storing advertisements and delivering advertisements to websites; Altimeters; Application programming interface (API) for computer software for developing and creating virtual reality, augmented reality and mixed reality experiences; Application programming interface (API) for computer software which facilitates online services for social networking and for data retrieval, upload, download, access and management; Application programming interface (API) for software which facilitates online services for social networking and for data retrieval, upload, download, access and management; Application programming interface (API) for use in building software applications; Augmented reality glasses; Augmented reality headsets; Augmented reality software; Augmented reality software for interactive

networking and transmission of images, audio-visual content, video content and messages; Platform as a service (PAAS) services featuring computer software to allow users to perform electronic business and e-commerce transaction; Providing an interactive web site that enables users to enter, access, track progress, monitor and generate nutrition, calories, health, fitness, personal exercise, sports, and athletic activity information and achievements; Non-downloadable software to provide information regarding sports, athletic skill development, fitness coaching, and fitness training via an online website and other computer and electronic communication networks for gaming consoles, personal computers, personal digital devices, and smart phones; Providing an interactive web site that enables users to enter, access, track progress, monitor and generate calories, fitness, personal exercise, and athletic activity information and achievements; Providing an online network service that enables users to transfer personal identity data to and share personal identity data with and among multiple online facilities; Providing customized computer searching services, namely, searching and retrieving information at the user's specific request via the internet; Providing information from searchable indexes and databases of information, including text, electronic documents, databases, graphics, electronic media, images and audio visual content via the internet and communication networks; Providing internet search engines; Non-downloadable software to allow users to perform electronic business transactions via the internet and communications networks; Providing online facilities featuring technology that enables online users to create personal profiles featuring social and business networking information, to transfer and share such information among multiple online facilities, to engage in social networking, and to manage their social networking accounts; Providing online facilities that give users the ability to upload, modify and share audio, video, photographic images, text, graphics and data; Providing online facilities featuring technology that enables online users to create personal profiles featuring social and business networking information and to transfer and share such information among multiple online facilities;

entertainment; Augmented reality software for navigating an augmented reality environment; Augmented reality software for object tracking, motion control and content visualization; Augmented reality software for operating augmented reality headsets; Augmented reality software for users to experience augmented reality visualization, manipulation and immersion; Cables, namely, electronic cables and connection cables; Cases, straps, wrist and arm bands for electronic monitoring devices; Computer application software for smartphones and mobile devices in the fields of fitness and exercise featuring personal training services, coaching, workouts and fitness assessments; Computer application software for use in connection with configuring and controlling wearable computer hardware and wearable computer peripherals; Computer hardware for displaying data and video; Computer hardware for use in measuring heart rhythm; Computer hardware for use in taking electrocardiograms; Computer operating system software; Computer peripheral equipment for use with smartwatches, namely, smartwatch bands and smartwatch straps; Computer peripherals for displaying data and video; Computer peripherals for mobile devices for displaying data and video, namely, peripherals worn on the head for mobile devices for displaying data and video; Computer peripherals for mobile devices for remotely accessing and transmitting data, namely, peripherals worn on the head for mobile devices for remotely accessing and transmitting data; Computer peripherals for mobile devices, namely, electronic devices, monitors, sensors, and displays for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, weather information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data; Computer peripherals for remotely accessing and transmitting data; Computer software and computer application software for mobile phones and personal digital

Providing online non-downloadable software for setting up, configuring, and controlling wearable computer hardware and wearable computer peripherals; Providing online sites that gives users the ability to upload, modify and share virtual reality, mixed reality and augmented reality content, information, experiences and data; Non-downloadable personal assistant software; Non-downloadable social assistant software; Providing search platforms to allow users to request and receive photos, videos, text, data, images, and electronic works; Providing search platforms to allow users to request and receive content, text, visual works, audio works, audiovisual works, literary works, data, files, documents, and electronic works; Non-downloadable software for facilitating and arranging for the financing and distribution of fundraising and donations; Non-downloadable software for online charitable fundraising services and financial donation services; Non-downloadable software for mapping services; Providing online non-downloadable computer software and hosting online facilities to enable users to access and download computer software; Non-downloadable software enabling development, assessment, testing, and maintenance of mobile software applications for portable computing devices, namely, mobile phones, smartphones, handheld computers and computer tablets; Non-downloadable software for sharing and displaying a user's location, planning activities with other users and making recommendations; Non-downloadable software for social and destination mapping; Non-downloadable software for finding content and content publishers, and for subscribing to content; Non-downloadable software for accessing, collecting, displaying, editing, linking, modifying, organizing, tagging, streaming, sharing, storing, transmitting, and otherwise providing electronic media, photographs, images, graphics, audio, videos, audio-visual content, data and information via the internet and communication networks; Non-downloadable e-commerce software to allow users to perform electronic business transactions via the internet; Non-downloadable location-aware computer software for searching, determining and sharing the location of goods, services and events of interest; Non-

devices that provides a fitness assessment and fitness score by comparing previous athletic performances and fitness levels with future athletic performances and fitness levels, and provides advice and customized workouts for improving in specific areas of a particular sport or fitness activity; Computer software and computer application software for mobile phones and personal digital devices that monitor, track, and compare sport activity and fitness level; Computer software and computer application software for mobile phones and personal digital devices that evaluates a user's fitness level and athleticism, and provides fitness scores; Computer software and computer application software for mobile phones and personal digital devices that provides tips, coaching, and personalized workouts, to improve the user's fitness score; Computer software and computer application software for mobile phones and personal digital devices for communicating with gaming consoles, personal computers, personal digital devices, and mobile phones, regarding time, pace, speed, steps taken, athletic skill, calories burned, agility, motion, balance, coordination, and flexibility; Computer software and computer application software for mobile phones and personal digital devices for monitoring, uploading, and downloading data regarding sport activity, fitness training, and fitness level to the internet and other computer and electronic communication networks; Computer software and computer application software that detects user's movements during physical activity, fitness sessions, workouts, to provide personalized fitness scores and assessments; Computer software and firmware, namely, operating system programs, database synchronization software, and data synchronization programs; Computer software development tools; Computer software for accessing, browsing and searching online databases; Computer software for accessing, monitoring, searching, displaying, reading, recommending, sharing, organizing, and annotating news, sports, weather,

downloadable software applications for searching and identifying local and location-based points of interest, events, landmarks, employment opportunities, entertainment, cultural events, shopping and offers; Non-downloadable software applications for providing location-based weather information; Non-downloadable software applications for providing, linking to, or streaming news or current events information; Non-downloadable software for modifying photographs, images and audio, video, and audio-video content with photographic filters and virtual reality, mixed reality, and augmented reality (AR) effects, namely, graphics, animations, text, drawings, geotags, metadata tags, and hyperlinks; Non-downloadable software for taking photographs and recording audio, audio-visual and video content; Non-downloadable software for uploading, downloading, archiving, enabling transmission of, and sharing images, audio-visual and video content and associated text and data; Non-downloadable software for streaming multimedia entertainment content; Non-downloadable software and applications for instant messaging, voice over internet protocol (VOIP), video conferencing, and audio conferencing; Non-downloadable software for use in designing, managing, measuring, analyzing, disseminating, and serving advertising of others; Non-downloadable software for taking photographs and recording audio, audio-visual and video content; Provision of Internet search engine services; Rental of computer software that gives users the ability to upload, edit, and share images, videos and audio-visual content; Software as a service (SAAS) featuring computer software for accessing, browsing, and searching online databases, audio, video and multimedia content, games, and software applications, software application marketplaces; Software as a service (SAAS) featuring computer software for accessing, monitoring, tracking, searching, saving, and sharing information on topics of general interest; Software as a service (SAAS) featuring computer software for connecting, operating, integrating, controlling, and managing networked consumer electronic devices, home climate devices and lighting products via wireless networks; Software as a service (SAAS) featuring computer software used for controlling stand-

commentary, and other information, content from periodicals, blogs, and websites, and other text, data, graphics, images, audio, video, and multimedia content; Computer software for communicating with gaming consoles regarding time, pace, speed, steps taken, athletic skill, calories burned, agility, motion, balance, coordination, and flexibility; Computer software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, data, graphics, images, audio, video, and multimedia content, and electronic publications, and electronic games; Computer software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via computer the internet and communication networks; Computer software for creating, managing, and interacting with an online community; Computer software for fitness and weight management; Computer software for fitness, fitness assessments, and sport activities; Computer software for integrating electronic data with real world environments for the purposes of entertainment, communicating, and social networking; Computer software for managing information regarding tracking, compliance and motivation with a health and fitness program; Computer software for modifying and enabling transmission of images, audio, audio visual and video content and data; Computer software for modifying photographs, images and audio, video, and audio-visual content with photographic filters and virtual reality, mixed reality and augmented reality (AR) effects, namely, graphics, animations, text, drawings, geotags, metadata tags, hyperlinks; Computer software for monitoring, processing, displaying, storing and transmitting data relating to a user's physical activity; Computer software for processing images, graphics, audio, video, and text;

alone voice controlled information and personal assistant devices; Software as a service (SAAS) for use in designing, creating and analyzing data, metrics and reports in the areas of health, fitness, sleep, nutrition and wellness; Software as a service (SAAS) services featuring software for sending and receiving electronic messages, notifications and alerts; Non-downloadable software for sending and receiving electronic messages, graphics, images, audio and audio-visual content via the internet and communication networks; Software as a service (SAAS) services featuring software for use of an algorithm for calculating and generating data for sport activity, fitness training, fitness level assessments, fitness coaching, fitness recommendations and goal setting; Software as a service (SAAS) services, namely, hosting software for use by others for use of an algorithm for calculating and generating data for sport activity, fitness training, fitness level assessments, fitness coaching, fitness recommendations and goal setting; Software as a service (SAAS) services, namely, providing a customized website and mobile portal for individuals featuring data analytics based on physiological metrics for purposes of health monitoring; Software as a service (SAAS) that enables users to manage employee accounts, schedule and track employee participation, and facilitate and manage corporate fitness and wellness programs; Software for electronic messaging; Technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; Technological services, namely, data warehousing services; Non-downloadable software for minting, creating, and issuing digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; Non-downloadable software for viewing and providing access to digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; Non-downloadable software for distributing, trading, storing, sending, receiving, accepting, and transmitting digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible

Computer software for sending and receiving electronic messages, graphics, images, audio and audio visual content via computer the internet and communication networks; Computer software for sending and receiving electronic messages, alerts, notifications and reminders; Computer software for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, weather information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data; Computer software for setting up, configuring, operating and controlling mobile devices, wearable devices, mobile phones, computers, and computer peripherals; Computer software for social networking and interacting with online communities; Computer software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; Computer software for the redirection of messages, Internet e-mail, and/or other data to one or more electronic wearable wireless communication devices from a data store on or associated with a personal computer or a server; Computer software for tracking and managing information regarding health, fitness, and wellness programs; Computer software for use as an application programming interface (API); Computer software for use in creating, managing, measuring, and disseminating advertising of others; Computer software for viewing digital images and photographs provided as updates for or in combination with head-mounted display screen devices; Computer software for wireless content, data and information delivery; Computer software for wireless data communication for receiving, processing, transmitting and displaying information relating to fitness, body fat, body mass index; Computer software in the field of health, fitness, exercise, and wellness for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude,

tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; Organization, management and governance of decentralized autonomous organizations (DAOs); Recording, management and tracking of ownership interests in decentralized autonomous organizations (DAOs); design and development of decentralized applications; Non-downloadable software for developing decentralized applications; Non-downloadable software for recording, managing, tracking, and transferring ownership interests in decentralized autonomous organizations; Non-downloadable software for management and governance of decentralized autonomous organizations; Non-downloadable software for participating and voting in decentralized autonomous organizations; Non-downloadable software for managing and validating transactions involving digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies

Class 09: Computer hardware; data processing equipment, including calculating machines and computers; computer software; communication software for providing access to the Internet; computer application software for mobile phones; telecommunications and communications equipment, apparatus and instruments; data communication apparatus and instruments, including portable electronic devices to access the Internet wirelessly; aerials and antennas for telecommunications; telecommunications cables; telecommunications hardware and installations; cellular telecommunications apparatus; electrical transformers, capacitors and resistors for telecommunication apparatus; optical fiber telecommunications apparatus; fiber optic connectors for telecommunications apparatus; memory apparatus for telecommunications network management and design; telecommunications products, including, computer control hardware for use in wireless communications systems; routers; modems;

of multimedia applications, namely, for the three-dimensional rendering of graphics, still images and moving pictures provided as updates for or in combination with head-mounted display screen devices; Software for creating, managing and accessing groups within virtual communities; Computer software, namely, an application providing social networking functionalities; Computer software, namely, an interpretive interface for facilitating interaction between humans and machines; Computer software, namely, software development tools for the creation, debugging, and deployment of software applications for smart glasses, near eye displays, head mounted displays, and smartphones; Smartwatches; Connection cables; Eyewear; Sunglasses; Digital video eyewear; Digital video eyewear, head mounted video displays, namely, micro screens and associated optics, virtual reality headsets, associated electronics, namely, connection cables and adaptors, software and firmware for displaying video games, electronic media and images; Downloadable computer application software for mobile phones, smartphones, computers, tablets, smart glasses, digital video eyewear, wearable digital electronic devices, namely, glasses, goggles, and headsets, head mounted displays, near eye display systems, communications networks, cloud computing services, and computer systems for communicating between the devices, networks and services; Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for displaying icons, determining and responding to user selection of icons, controlling connections to and communication with other devices, networks, and systems, operating a camera to record and display images and audio visual files, organizing digital image and audio visual files, controlling microphones, controlling sound level of built-in speakers, transferring computer files between the smart glasses, near eye display systems, head mounted displays and other devices, networks, and systems, controlling user notifications, controlling a touchpad, controlling and obtaining data from sensors in the smart glasses, near eye display systems, and head mounted displays, including accelerometers, barometric, temperature, tilt, tip, and yawl sensors, head orientation sensors, and

telecommunication couplers; telecommunication modular plugs; transceivers; wireless transceivers; teleconferencing telephones; telephone answering machines; internet telephones; wireless telephones; cell phones; smart phones; earphones and antennae for cordless and wireless telephones; communication apparatus and instruments for wireless internet access and online streamlining; hands-free devices for car telephones and mobile telephones; in-car telephone handset cradles; mobile phone cases; magnetically encoded cards; smart cards; holograms; apparatus for recording, transmission or reproduction of sound or images; apparatus and instruments for the processing, transmission, storage, logging, reception and retrieval of data being in the form of encoded data, text, graphic images or video or a combination of these formats; image processing apparatus, instruments and equipment; media for storing information, data, images and sound; blank and pre-recorded magnetic cards; cards containing microprocessors; integrated circuit cards; electronic identification cards; telephone cards; telephone credit cards; credit cards; debit cards; magnetic, digital and optical data carriers, recording and storage media (blank and pre-recorded); recording discs; compact discs; DVDs and other digital recording media; machine readable media; digital video, and data (downloadable) provided from a computer database or the internet; personal digital assistants; satellite receiving and transmission apparatus and instruments; apparatus for downloading audio, video and data from the internet; television apparatus and instruments; radio and television broadcasting transmitters and receivers; apparatus for access to broadcast or transmitted programmes; programmed-data-carrying electronic circuits; electronic and satellite navigational and positional apparatus and instruments, including global positioning systems; parts and fittings included in class 09 for the aforementioned goods; scientific, nautical, surveying, photographic, cinematographic, optical, weighing,

GPS receivers, controlling the speed of the CPU, and sensing and displaying the battery charge level, and displaying, capturing, recording, and streaming data, images, and audio visual content in standard reality, augmented reality, and mixed reality environments; Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for the generation and display of standard reality, augmented reality, mixed reality content; Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for communication with other smart glasses, near eye display systems, and head mounted displays; Downloadable computer software for enabling capture, storage, and transmission of photographs, videos, data, and information with a user's biometric, health, and other performance data overlaid and integrated into the recording; Downloadable computer software for viewing and interacting with a feed of images, audio, audio-visual and video content and associated text and data; Downloadable computer software, namely, mobile application for setting up, configuring, and controlling wearable computer hardware and wearable computer peripherals; Electric cables; Electrical adapters; Electronic monitoring devices incorporating indicators that light up and change color based on wearer's cumulative activity level; Electronic monitoring devices incorporating microprocessors, digital display, and accelerometers, for detecting, storing, reporting, monitoring, uploading and downloading sport, fitness training, and activity data to the internet, and communication with gaming consoles and personal computers, regarding time, pace, speed, steps taken, athletic skill, calories burned, heart and body rate, global positioning, direction, distance, altitude, navigational and weather information; Electronic navigational instruments and apparatus; Fitness and exercise sensors, monitors, and displays for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, temperature, and navigational information, to be worn during exercise and for sports activities; Gesture recognition software; Glasses with the function of wireless communication; Global positioning system (GPS) devices; Goggles for

measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; mechanisms for coin-operated apparatus; fire-extinguishing apparatus.
